Dear customer,

Thank you for the opportunity to present our capability statement and for your interest in doing business with our company. I believe the details submitted in this document satisfies your expectations.

VEPRM, as integration experts, specialise in Information Technology and Automation. Our Products and services are designed explicitly for Port Terminals, Intramodal Terminals, Logistics Service Providers and Government Bodies.

We believe the value that technology brings to the industry help our customers to achieve their goals and develop a sustainable future with growth opportunities.

At VEPRM, we believe the technology and the platforms should enable the business and the customers to achieve the maximum potential for their investments. Our mission is to ensure our customers succeed in their vision.

Given an opportunity, we are looking forward to building a professional relationship to realise the vision.

Once again, thank you and looking forward to working with you.

Sincerely,

Nathan Karpagam

Managing Director,
VEPRM Pty LTD.

Products

VEPRM is an Information technology and service provider company. Our vision is to bring innovation and State-of-the-art technology and systems to the most demanding Transports and Logistics sector.

Terminal Automation Services

Terminal Automation Services is a comprehensive service offered by VEPRM. This service is designed for both Greenfield and Brownfield terminals intending to automate fully or semi-automate the business process in handling the ISO containers.

At VEPRM, the Terminal Automation services are designed for both Port Terminals (Sea Ports and River Ports) and Intramodal Terminal (Rail Terminals).

With our multidisciplinary capability, this service encompasses the following disciplines,

- Professional Services
- Terminal Design
- O&A Analysis

- Project Management
- Systems Integrations
- Site Integrations
- Go-live support

At VERPM, with our proven experience, we can develop and deliver an Automated Terminal. Contact our sales support team at sales@veprm.com for further details.

Managed Services

The availability of the business systems is critical for terminal operations. At VERPM, we have the knowledge and capability to maintain the availability of the business systems, especially during software upgrades and obsolescence. This service includes,

- Software maintenance supplied by the vendor
- Validation before rollout
- Outage plans and communications
- Production Upgrades
- Incident management
- Remote Support

Every operational system, including TOS, Equipment automation systems, business systems, undergo frequent changes as part of the standard upgrades. At VEPRM, we have the capability to understand the critical nature of the change and the risk associated with it. This includes validation of standard business processes, functionalities, and features.

The governance over the change process is highly critical for the smooth rollout of the upgrades and implementation of the change. At VEPRM, we have extensive knowledge and experience to define the change management process tailored to the terminal.

Our configuration management, rollback procedure and change communication process are defined in consultation with the customer to accommodate the changes.

This service includes verification and validations platforms established to assess the change's readiness and develop comprehensive change management. Contact our sales support team at sales@veprm.com for further details about this service.

Products

VEPRM, as an innovation company, is in the process of creating extensive products that are just suited for the port and Intramodal terminal operations. Our products are developed on the concepts of Industry 4.0 specifications, which are integrated with State-of-The-Art Technologies available in the market.

Contact our sales support team at sales@veprm.com for further details.

About VEPRM

VEPRM has its vision to provide the next generations of IT systems and services to the industry. We are digital partners supporting the business with all the automation and IT needs. VEPRM is a registered supplier in ICN Gateway.
